

THE DENTIST WELL-BEING COMMITTEE

A program for assisting dentists and their families with personal problems.

PURPOSE

The Committee assists dentists and their families who may be experiencing personal problems. The Committee has helped many dentists over the years with problems such as stress, drug dependence, alcoholism, depression, medical problems, infectious diseases, neurological disorders and other illnesses that cause impairment.

CONFIDENTIALITY

The Committee provides a confidential, non-disciplinary avenue for dentists to seek appropriate help for problems. Referrals are completely confidential. Any dentist who seeks help through the Committee can be assured that their information will be held in the strictest confidence.

ADVOCACY

When a dentist enters into a treatment agreement with the Committee and remains in compliance, the Committee is able to provide written and verbal support of the dentist whenever it is needed. The most common example is when the dentist needs advocacy with regard to licensure issues. In other cases, the Committee has advocated with the court system, employers and malpractice carriers.

The Dentist Well-Being Committee
in cooperation with the
Dental Hygiene Well-Being Committee

Cordially invites you to an educational event

AVOID LIABILITY:
**Know Your Patients Medications
and Their Dental Implications**

WEDNESDAY, OCT 24, 2018
Sheraton Hotel in Columbia, MD

Presented by
Harold L. Crossley, D.D.S., M.S. Ph.D.

Recipient of the 2008 Gordon Christensen Lecturer Recognition award presented by the Chicago Dental Society; Consultant for the United States Drug Enforcement Administration; Internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

**AVOID LIABILITY:
Know Your Patients Medications
and Their Dental Implications**

This workshop will provide the essentials of clinical pharmacology useful in the dental office. Using commonly prescribed drugs as a starting point, the presentation explores the control of post-operative dental pain, the antibiotic(s)

of choice for oro-facial infections, the antibiotic prophylaxis guidelines for the cardiac and/or orthopedic prosthesis patient, current information on bisphosphonate induced osteonecrosis as well as potentially harmful drug interactions. There are many medications that alter salivary flow, consistency, and pH, attend this seminar and discover these important side effects. This workshop will also include the current state regulations regarding CRISP and how to enroll. This lively, entertaining, and informative presentation should be attended by all **dentists and members of the dental team.**

**PROGRAM
Wednesday, October 24, 2018**
