

THE DENTIST WELL-BEING COMMITTEE

A program for assisting dentists and their families with personal problems.

PURPOSE

The Committee assists dentists and their families who may be experiencing personal problems. The Committee has helped many dentists over the years with problems such as stress, drug dependence, alcoholism, depression, medical problems, infectious diseases, neurological disorders and other illnesses that cause impairment.

CONFIDENTIALITY

The Committee provides a confidential, non-disciplinary avenue for dentists to seek appropriate help for problems. Referrals are completely confidential. Any dentist who seeks help through the Committee can be assured that their information will be held in the strictest confidence.

ADVOCACY

When a dentist enters into a treatment agreement with the Committee and remains in compliance, the Committee is able to provide written and verbal support of the dentist whenever it is needed. The most common example is when the dentist needs advocacy with regard to licensure issues. In other cases, the Committee has advocated with the court system, employers and malpractice carriers.

The Dentist Well-Being Committee

in cooperation with the
Dental Hygiene Well-Being Committee

A MEDLEY OF CLINICAL AND PRACTICAL PHARMACOLOGY

(meets MSBDE requirements for licensure)

**Wednesday,
December 14, 2016**

PRESENTED BY

HAROLD L. CROSSLEY, D.D.S., M.S. PH.D.

Recipient of the 2008 Gordon Christensen Lecturer Recognition award presented by the Chicago Dental Society; Consultant for the United States Drug Enforcement Administration; Internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

Dentist Well-Being Committee's All-Day Meeting

A MEDLEY OF CLINICAL AND PRACTICAL PHARMACOLOGY

This seven hour presentation will be divided into two sections.

The morning session provides the nuts and bolts of practical pharmacology useful in the dental office. Using commonly prescribed drugs as a starting point, the presentation explores the control of post-operative

dental pain, the antibiotic(s) of choice for oro-facial infections, the antibiotic prophylaxis guidelines for the cardiac and/or orthopedic prosthesis patient, current information on bisphosphonate induced osteonecrosis as well as potentially harmful drug interactions.

The afternoon session will provide a snapshot of legal and illegal drug abuse. This part of the program will explore the nature of addiction, dental management of patients who are in recovery, the current state of the opioid epidemic, more popular drugs of abuse among adults and adolescents, signs and symptoms of their abuse, and the impact of substance abuse on your practice, your family and you.

This section will include the current state regulations regarding CRISP and how to enroll. And lastly, this course will include new and updated regulations to satisfy the two hour State Board of Dental Examiners required course on Proper Pharmacologic Prescribing and Disposal.

This lively, entertaining, and informative presentation lecture should be attended by all dentists, spouses, dental hygienists and dental team members.

This course meets the Requirements for (COMAR) 10.44.22.04(E) and (F).

PROGRAM Wednesday, December 14, 2016

8:00am - 8:30am

Registration and Continental Breakfast

8:30am - Noon

Lecture

Noon - 1:00pm

Lunch

1:00pm - 4:30pm

Lecture

**Wednesday,
Dec. 14**
