

## State Board of Dental Examiners

The Committee receives referrals from the State Board of Dental Examiners and is requested to evaluate, refer to treatment and monitor certain cases. In these instances, the case is not completely confidential due to being a Board referral, rather than a self-referral. However, the Committee still serves a very important function in terms of advocating for the dentist who complies with the treatment agreement and monitoring requirements.

“

*Recovery taught me to take responsibility for myself. I don't act impulsively and I appreciate life today. I am grateful for the things I have today. It took a lot of pain and loss before I could learn to appreciate all aspects of my life.*

”

# DENTIST WELL-BEING COMMITTEE

A program for assisting dentists and their families with personal problems

[www.dentistwellbeing.com](http://www.dentistwellbeing.com)  
1-888-233-9044

## Purpose

The Committee assists dentists and their families who may be experiencing personal problems. The committee has helped many dentists over the years with problems such as stress, alcohol and drug use, depression, and other problems that may cause impairment in their lives.

## Confidentiality

The Committee provides a confidential non-disciplinary avenue for dentists to seek appropriate help for problems. Referrals are completely confidential. Any dentist who seeks help through the Committee can be assured their information will be held in the strictest confidence.

## Advocacy

When a dentist enters into a treatment agreement with the Committee and remains in compliance with all aspects of the agreement, the Committee is able to provide written and verbal testimony and support of the dentist whenever it is needed. The most common example is when the dentist needs advocacy with regard to licensure issues. In other cases, the Committee has advocated with the court system, employers, malpractice carriers, and other institutions.

**This program was awarded the Golden Apple for Excellence in Dentist Well Being Activities by the American Dental Association (ADA). This is a national award that is presented to only one program per year.**

## Committee Members

The Dentist Well-Being Committee consists of concerned dentists who wish to help their peers to resolve problems and maintain their ability to practice.

A Clinical Coordinator is in charge of the initial contact, evaluation, referral and monitoring.

### Robert Miller, DDS, Chairman

410-535-4050, rgmillerhj@hotmial.com

### Robert White, LCPC, Clinical Coordinator

410-328-8549, rwhite@psych.umaryland.edu

### Michael Anderson, DDS

301-797-6841

### Lenora Caldwell, DDS

410-206-6434

### Brian Muhler, DDS

410-252-2424

### Jerry Yeoumans, DDS

### Deborah A. Wilson, DDS

410-381-4701

## Advisory Member

### Hal Crossley, DDS

### Norbert Myslinski, PhD

Dental School Liaison

## Is the Process Punitive?

NO – The Dentist Well-Being Committee acts as an advocate for the dentist with the State Board of Dental Examiners, insurance companies, and law enforcement agencies, as long as the dentist is compliant with treatment.

## What Happens After a Referral?

Family members, employees, associates or friends concerned about a dentist often contact the Dentist Well-Being Committee. Most dentists are self-referred. The Committee first determines if the dentist actually has a problem. The dentist is contacted and urged to meet the Clinical Coordinator. If there is a problem then the dentist is referred for an evaluation. If treatment is recommended then a treatment agreement is drawn up between the dentist and the Committee.

## Is the Information Given to the Committee Confidential?

All information held by the Dentist Well-Being Committee is considered strictly confidential. Records are kept by the Clinical Coordinator and are not at the offices of the Maryland State Dental Association. With the exception of those cases that are referred to the Committee by the State Board or those considered to be a danger to themselves or others, no information is released without the dentist's written consent.

## Family Questions

The Committee welcomes calls and questions from family members who may be concerned about a dentist. We will work confidentially to provide assistance, support and guidance about the best way to intervene and assist a dentist with a problem.
